We are trying to write a short biography paper about Prince E. Rouse (October 12, 1917 – August 10, 2003). He was a great scientist in the polymer field and unfortunately there is little known about his life. We have searched online quite a bit but had very little success. However, we found out that he

				worked few years in the Los Alamos National Laboratory (LANL) and the only online reference we found was a small note about him in an issue of the Atom magazine (the scientific magazine of LANL) from October 1966. We are looking for any biographical information about him that is available in the LANL such as: a- Name/contact info for any of his relatives or family members that we can contact. b- Name/contact info of some of his colleagues who can be reached for any possible memory about him. c- Any other simple biographical information that is available about him that can be shared with us. Dates: 1955-1980 or later, Title: Prince E. Rouse- biographical information, Offices: Los Alamos National Laboratory (LANL), contact: Alan Carr (abcarr@lanl.gov)
